

**BRIGHT SITE**  
WITH R7 VALUE INSULATED PANELS

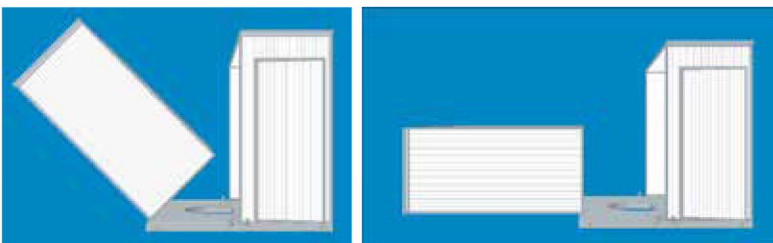

## BETTER BUILDINGS FOR BETTER WELL SITES

Call us vain, but FAV Systems Inc. prides itself on developing durable, high quality products that are also good looking. Our new Bright Site wellhead shelters are designed for strength, convenient access and clean appearance.

Each modular shelters is equipped with R7-value insulated panels. An optional split-floor can be added around the wellhead to keep unwanted rodents out. FAV Systems provides a regular door for access to the standard 8' x 8' space. For major work, the entire building can be quickly and easily opened on clamshell hinge. Just add an optional heater and it's ready for the mother-in-law.

FAV Systems Bright Site is competitively priced to compliment any wellsite. Call for a quote today.

Clamshell door can open for full access
